Draft revised rules.

1. The registrar or registrars appointed by the Collector under section 5 for each village or ward to which the Act shall be applied shall each maintain a register of births in the annexed form No. 1 and a register of deaths in the annexed Form No 2. In both the registers the serial number of the event should be entered in column (1), commencing from 1st January, and the series should be continued up to 31st December. No entries may be interpolated between the two serial numbers. No entry will be made in column (10) of Form No. 1 unless the father of the child wishes that the mother's name should be recorded in addition to his name. In respect of illegitimate children the registrar should observe the instructions given in the last portion of section 8. The classes to be entered in column (7) of the register of births and column (11) of the register of deaths are 'Europeans, Americans, Eurasians, Indian Christians, Hindus, Muhammadans, and other classes. Castes and subdivisions of castes should not be noted. In the case of persons who have no house name, the father's name must be entered in column (5) of Form No. 2. Each registrar shall submit abstracts of his registers in Village Manual Forms Nos. 19-A and 19-B (annexed) monthly to the tahsildar. A copy of the return should be forwarded at the same time to the president of the village panchayat if such a panchayat exists. Village headmen should give the village panchayat facilities to enable it to take extracts from the birth and death registers for the purpose of checking the monthly returns sent to it The panchayat will make its own arrangements for taking the extracts. The president of the village panchayat will place the monthly return of births and deaths sent by the village headman before the panchayat at its next meeting. The panchayat will pass the return to the tahsildar with a certificate stating that the returns are correct or, if incorrect, what alterations are necessary. In the case of Europeans, European British subjects and Americans as defined in section 4 of the Criminal Procedure Code, an additional register of births in Form No. 1-A and an additional register of deaths in Form No. 2-A shall be maintained in counterfoil The entries in these two registers should be made in diglott. In case the registrar is ignorant of English and the informant of the vernacular, the registrar should take steps to get a vernacular translation of the report and enter the particulars in the vernacular then and there. If he cannot get such a translation, the vernacular as well as the English entries should be made by the Revenue Inspector on his first visit to the village.

2. Information regarding births or deaths may be given to the registrar in writing either by a letter containing all the necessary particulars or in the forms annexed, Nos. 3-A and 4-A, in the case of Europeans, European British subjects and Americans and Nos. 3 and 4 in the case of others. These forms will be supplied by the registrar free of cost to all residents within the area for which he has been appointed Oral information of births and deaths may also be given, but in the case of Europeans, European British subjects and Americans, written reports in diglott, i.e., in English and in the vernacular of the district, should, if possible, be obtained from the informant when the registrar does not know English. In every case in which a birth is registered, the registrar shall, as required by section 14, give to the informant on his application, free of all charge, a memorandum of the fact in the annexed Form No. 5 All information received by the registrar by letter or in Form No. 3 and Form No 4 shall be filed by him and preserved for two years. But any letter or Form No. 3-A or Form No. 4-A received in the case of Europeans, European British subjects and Americans shall, after the register in Form No. 1-A or 2-A has been completely filled up in diglott, be forwarded with the counterfoils of the register without delay to the office of the Registrar-General of Births, Deaths and Marriages through the District Magistrate. If the letter or Form No. 3-A or 4-A be in English and the registrar does not know English, the duty of despatching the records to the Registrar-General shall be performed by the Revenue Inspector on his first visit to the village.

3. The registers and files of letters and forms and the accounts relating to fees recovered under section 17 and the other records to be maintained by the registrar under the orders of the District

Collector will be open to the inspection of any Revenue Officer of or above the rank of Revenue Inspector, and it shall be the duty of these officers to examine and test the registers and records in such manner and at such intervals as may be prescribed by the District Collector. The registers will also be open to the inspection of all officers of the Public Health and Medical departments:

Provided that in case the sub-registrar of assurances is the registrar, the checking officer shall not be lower in rank than a district health officer or an assistant Surgeon or a tahsildar or deputy tahsildar in independent charge.

"4. The registrar shall, in addition to compliance with the provisions of sections 6 and 7 of the Act, also notify in some conspicuous place on or near the outer door of his office, or (if he has no office) of his house, the hours during which he will attend to register births and deaths. The hours should be two or three hours in the day (excluding Sundays and authorized holidays) and will be determined for each registrar by the District Collector. If the registrar is absent for any cause during these hours, he shall post a notice on or near the outer door of his office or house showing when he will be able to perform his duty as registrar and the name of the person to whom, during his absence, letters or written information in Forms Nos. 3, 4, 3-A and 4-A may be delivered by informants.

5. In case the registrar is unable for more than two days to attend to his duty on account of illness or other urgent cause, he shall report the fact to the nearest Revenue Officer of or above the rank of deputy tahsildar and that officer shall at once make temporary arrangements for the performance of the duties of the registrar, and any person thus temporarily appointed shall be held to be the registrar for the purposes of the Act and of these rules.

6. In cases in which the sub-registrar of assurances is himself the registrar, he shall retain the registers in Forms Nos. 1, 2, 1-A and 2-A in his office and shall give and certify extracts therefrom under section 17 of the Act. In cases in which the registrar is not a sub-registrar of assurances, he shall retain the registers in his custody for a period of twelve months after the close of the calendar year to which they relate. On the expiry of that period, the tahsildar or the deputy tahsildar within whose jurisdiction the village is situated shall call for the registers. He shall then check them and transmit them within three months to the sub-registrar of assurances in whose division the village is situated. The sub-registrar shall file the registers in his office and shall give and certify extracts therefrom under section 17 of the Act. A registrar who is not a sub-registrar of assurances is not competent to give or certify extracts from the registers under the provisions of section 17 of the Act. The tahsildar or the deputy tahsildar, as the case may be, shall give and certify such extracts until the registers are transferred to the sub-registrar of assurances.

7. All clerical errors found in the registers of births or in the registers of deaths should be corrected by drawing a line through the original entry (but not so as to render it illegible) and writing the new entry above it, and the correction should be initialled and dated by the registrar alone, if the error be discovered by him or by both the registrar and the checking officer, if the error be discovered by the checking officer; provided that no entry shall be corrected under this rule more than a year after the entry is made except with the previous sanction of the divisional officer.

8. Any birth or death that has occurred in a village but which has not been registered shall, when information pertaining to it is received, be registered by the registrar. If such birth or death is detected by a checking officer, the registrar shall register the event and the entries referring thereto shall be initialled and dated by the checking officer.

9. Every registrar shall arrange to receive on the last day of every month the village vital statistics returns relating to any railway premises situated within the village limits from the railway station masters, and incorporate them under a separate head, provided for the purpose in the monthly list to be submitted to the tahsildar.

10. In the case of a child which is born dead and also in the case of a child which dies before its birth has been registered, the registrar should enter the birth in the register of births and the death in the register of deaths. Still births should not however be given serial numbers and should be entered in red ink. They should also be excluded from the totals of both births and deaths in the compilation of the monthly returns.

11. It shall be the duty of all village officers and village servants working in any village or ward to which the Act may be extended to assist the registrar in obtaining information for the registration under section 15 of all births and deaths which have not been already registered. They should also warn persons who are bound to give information regarding such births or deaths of their liability to punishment under section 18 of the Act for failure to give information in due time.

12. When the Registrar receives information of any births or deaths which should be registered by him but have not been reported to him in due time, he shall, on the 15th and on the last day of each month, prepare a list of such cases in Form No. 6 and submit it to the tahsildar for his orders (or those of the divisional officer if the District Collector so direct) as to whether the persons who have failed to give information as required by the Act should be prosecuted under clause (1) of section 18. The registrar should, if possible, obtain and enter in the list the explanation of the supposed defaulter and the remarks of the village head, which should be signed by the village head, and should add his own remarks and sign and date the list. If the village head is himself the registrar, he should enter his remarks only in the column for remarks of the Registrar. Particulars of any offences which may be committed under clauses (2) and (3) of section 18 should be submitted to the tahsildar by the registrar in the form of a report. The same procedure shall be adopted in respect of mistakes (other than clerical mistakes) detected in the entries in the birth and death register relating to the name or age or other particulars of one born or dead.

13. Fees for searches and fees for applications for extracts under section 17 shall be paid in court-fee stamps.

No. 1179.—The Trichinopoly Circle Temple Committee has brought to the notice of the Board of Commissioners for Hindu Religious Endowments that the temple of Sri Naganatheswara at Kuzhumani in the Trichinopoly taluk of the Trichinopoly district the annual income of which is at present below Rs 250 had some 20 acres of ayan manjai lands at Kuzhumani some years ago and that the then garnikals alienated all the lands except 4 acres. The Committee considers that in order to take steps to have the alienated lands restored to the temple it is desirable that all the provisions of the Act except section 69 (1) should be applied to it. The Board agrees with the view of the Committee. Before issuing a notification as suggested by the Board, the Government desire to know whether the garnikkal or any worshipper at the temple has any objection to urge against such application. If no valid objection is received by Government within a month from the date of publication of the notification in the District Gazette the Government will proceed to issue a notification under the proviso to section 3 of the Act excluding all the provisions of the Act except section 69 (1) to the said temple.

APPOINTMENT OF PROBATIONARY DEPUTY TAHSILDARS.

NOTIFICATION INVITING APPLICATIONS.

Applications are invited for four appointments of Probationary Deputy Tahsildar.

2 (a) A successful applicant will, on first appointment, be on probation which will ordinarily be for a

period of three years; he will draw a salary of Rs. 125 per mensem and will be designated a Probationary Deputy Tahsildar.

(*b*) A probationer who has no lien on any appointment which is permanent under Government, is not in the permanent service of Government; his services may be dispensed with at any time during the period of probation by the Government, should his work, character or conduct be unsatisfactory. Should, however, a probationer have a lien on any Government appointment, he would be liable to be reverted to that appointment for the same reasons.

(*c*) During the period of probation, he will be placed under the supervision of the Collector of a district and will receive training in revenue and magisterial duties prescribed by the rules in force for the time being for Probationary Deputy Tahsildars. During the period of probation he will be required to pass the special tests prescribed for the post of Deputy Tahsildar.

(*d*) If a probationer completes the prescribed tests and is found to be fit for permanent appointment to the grade of Deputy Tahsildar, he will, on the expiry of his three years' probation or as soon after as may be convenient, be confirmed in the next suitable vacancy, which may occur in the grade of Deputy Tahsildar on Rs. 150—5—200 per mensem and be posted to a district. Should any probationer, in spite of his passing the required tests, be found to be unfit for permanent appointment as Deputy Tahsildar, it will be open to the Government, on terminating his probation, to offer him an appointment in a lower grade.

3. An applicant must satisfy the following conditions:—

(*a*) He must be either a British * subject of Indian domicile or a ruler or subject of a State in India in respect of whom the Governor-General in Council has made a declaration under section 96 A of the Government of India Act. If he (being a British subject) or his father or his mother was not born within His Majesty's Dominions and allegiances the father must, at the time of the candidate's birth, have been a British subject or the subject of a State in India; and if alive, must be, or if dead, must have continued to be until his death, a British subject or a subject of such State.

The declaration must reach the Staff Selection Board before the communications directing him to appear before the Board is issued.

NOTE.—Applications for declarations under section 96-A of the Government of India Act should be made to the Resident or Political Agent of the State

(*b*) He must be a graduate of a recognized Indian or British University, or a Barrister-at-Law;

(*c*) he must be of satisfactory character;

(*d*) he must be of sound health, good physique and active habits, and free from any defect unfitting him from Government service;

(*e*) his age as proved by the evidence mentioned in paragraph 6 (*a*) must not be under 20 or over 23 years on 1st March 1929, i.e., he must have been born on or after 2nd March 1906 and not later than 1st March 1909.

NOTE.—For the purposes of this condition (*i*) a candidate who has spent not less than three years in Europe will be allowed to deduct one year from his age, (*ii*) a candidate who has actually served in the Army, in which is included the Indian Defence Force whether for the purpose of preliminary training or when called up for service, will be allowed to deduct the period of such service, during the War from his age; (*iii*) in the case of a candidate already in Government service, the maximum age limit will be 26 years.

4. Forms of application and of medical certificate can be obtained from the Secretary, Staff Selection Board, Fort St. George, Madras. A request for forms should be accompanied by a stamped envelope addressed to the person requiring them; requests not accompanied by stamped envelope will not be complied with.

5. Every application must be filled up by the candidate himself in his own handwriting; it must not be typewritten.

6. Every application must be accompanied by the following documents:—

(*a*) Evidence of date of birth, viz.—
- (1) a duly certified birth certificate issued by a public authority; or
- (2) a certified extract from Secondary School-Leaving Certificate showing the date of birth; or
- (3) a certificate from a University or College or school authority showing date of birth according to the University or College or school records;

(*b*) at least two certificates of character and conduct *in original*: one must be by the Principal of the educational institution in which the applicant last studied for not less than one year;

(*c*) a medical certificate in the prescribed form.

7. Every application (with all the enclosures securely fastened to it) should be sent by registered post direct to the Secretary superscribed and addressed as follows:—

Provided that the child of a British subject, whether that child was born before or after the passing of this Act, shall be deemed to have been born within His Majesty's allegiance if born in a place where by treaty, capitulation grant, usage, sufferance, or other lawful means, His Majesty exercises jurisdiction over British subjects

Provided also that any person whose British nationality is conditional upon registration at a British consulate shall cease to be a British subject unless within one year after he attains the age of twenty-one, or within such extended period as may be authorized in special cases by regulations made under this Act—(a) he asserts his British nationality by a declaration of retention of British nationality, registered in such manner as may be prescribed by regulations made under this Act; and (b) if he is a subject or citizen of a foreign country under the law of which he can, at the time of asserting his British nationality, divest himself of the nationality of that foreign country by making a declaration of alienage or otherwise, he divests himself of such nationality accordingly.

Sub-section (2).—A person born on board a foreign ship shall not be deemed to be a British subject by reason only that the ship was in British territorial waters at the time of his birth.

GINGELLY CROP OF 1928-29—FIRST FORECAST REPORT.

[On an average of the five years ending 1926-27, the area under gingelly in the Madras Presidency has represented 12·7 per cent of the total area under gingelly in India.]

The area sown with gingelly up to the end of July 1928, is estimated at 321,800 acres against 373,400 acres on the corresponding date of last year. The decrease is about 14 per cent. It occurs in all the districts except Ganjam, East Godavari, Bellary, Trichinopoly and Madura and is due mainly to inadequate sowing rains as compared with last year. The decrease is large in the Central and the Carnatic districts where the additional reason for the fall is the *ryots'* preference for the more profitable crop of groundnut.

2. The yield has been or is expected to be below normal in the districts of Ganjam and Vizagapatam where the extremes of drought and heavy rains spoiled the crop at the early and late stages respectively; and in the districts of Kistna, Chittoor, Salem and Coimbatore, where rains were generally insufficient. In Salem the crop was also affected by insect attack. In parts of West Godavari the crop did not germinate at all. In other areas the yield has been, or is expected to be, normal generally.

3. Details by districts are given in the statement appended.

COTTON CROP OF 1928-29—FIRST FORECAST REPORT.

[On an average of the five years ending 1926-27, the area under cotton in the Madras Presidency has represented 10·3 per cent of the total area under cotton in India.]

General.—The area under cotton up to the end of July 1928 is estimated at 229,500 acres as against 172,100 acres on the corresponding date of last year. There has been an increase of 33 per cent.

2. *South and Central districts, mainly cambodias tract.*—The largest increase is found in these districts and it is due to the early summer showers. Most of the area represents the last year's crop left on the ground for second picking before it is removed in September under the Pest Act. The yield of the summer or second pickings has been below normal everywhere and much reduced in the south owing to the inadequate later rains.

3. *Deccan or Northern and Western tract.*—There has been an aggregate increase in the early or mungari sowings in the Deccan. Bellary has contributed the largest area owing to the timely rains while Karnool has shown a decrease on account of insufficient rain in parts.

4. *Circars or Coromandal tract.*—The area in Guntur has fallen by about 33 per cent on account of late rains. Further sowings are in progress.

5. Figures by districts are given in the statement below :—

The Standard Barometer and Thermometers are read at 6 a.m., 10 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain gauge is two feet from the ground. The wind, rain and general weather registered are for the current civil day—from midnight to midnight.

The total quantity of rain collected since January 1st is 8·57 inches, the average due for the same period being 12·03 inches.

There were nine calm hours during the month. The resultant corresponding to the above numbers is represented by a S.W. wind, blowing with a uniform daily velocity of 100·4 miles.

During the first ten days of the month, weather was drier and hotter than usual at Madras. Between the 11th and the 15th, showers generally accompanying thunderstorms were frequent and nearly 2½ inches of rain out of 3·27" recorded during the whole month fell during this period. These showers effected a reduction in temperature and the maximum on the 14th was as low as 79°. Temperature again rose to 100° on the 21st and continued high for the rest of the month reaching 103·5° on the 31st—almost a record for that part of the year.

Thunderstorm was recorded on five days, distant thunder on one other day and lightning on three other days.
